How to Report Invasive Species in Montana

Download the iNaturalist app

Take a Photo or Record a Sound

- App will suggest an identification
- Accept that or suggest your own identification
- iNaturalist users around the globe can confirm your identification or suggest another

How-To
iNaturalist Resources

What Happens to Observations You Report?

- Observations will be identified by volunteer citizen scientists in the iNaturalist community and agency biologists
- Observations with confirmed species identifications are brought into statewide databases monthly
- Weed and aquatic invasive species managers and other natural resource managers are emailed reports of infestations
- Control efforts are undertaken to prevent further spread
